

[BESS Integrator Name]  
[BESS Integrator Address]  
[Date]

To: CECONY/O&R RFP Manager,

This letter affirms that the undersigned parties have engaged in formal discussions regarding the procurement, installation, and integration of key equipment of an energy storage facility designed to fulfill the requirements of the 2022 Bulk Storage Solicitation. We affirm that through these discussions, both parties have been made aware of key criteria for bid responses, as defined in the RFP documents, including the following parameters:

- Projected Commercial Operations Date (COD):
- Minimum Project Size (MW):
- Expected Storage Duration (hours):

These discussions pertain to the following key equipment (check all that apply):

- Battery inverters/Power Control System (PCS)
- Battery modules
- SCADA/Controls equipment & software
- Medium Voltage (MV)/High Voltage (HV) transformers

Additionally, both parties affirm they have discussed the following items pursuant to the requirements of 2022 Bulk Storage Solicitation and acknowledge a mutual understanding of the general feasibility of the project with respect to:

- Delivery schedule/lead times
- Equipment availability/typical deposits required to secure production quantities
- Expected capital and operating costs
- Storage performance requirements
- Regulatory and permitting requirements

While this letter does not represent a binding agreement between the parties, it does indicate that both parties are mutually aware of the RFP requirements and have critically considered their ability to deliver their respective equipment or services
