Bulk Energy Storage Scheduling and Dispatch Rights Request for Proposals

APPENDIX E

Overview

As part of the qualitative evaluation of Bidder proposals, CECONY and O&R will evaluate the location of proposed projects. For this procurement, CECONY has identified preferred locations which are described below. Locations can be confirmed via the self-service Hosting Capacity Maps.¹

Preferred CECONY Locations

CECONY has identified the following preferred locations in its service territory. This list is meant to describe areas that could receive preferred location consideration. All dates and networks are listed below:

- 1) Projects committed to operate by the end of **2027** and electrically interconnected to the Cooper Square, Flatbush, Richmond Hill, Crown Heights, or Ridgewood networks.
- 2) Projects committed to operate by the end of **2028** and electrically interconnected to the Grasslands networks.
- 3) Projects committed to operate by the end of **2029** and electrically interconnected to the West Bronx network.
- 4) Projects committed to operate by the end of **2030** and electrically interconnected to the Southeast Bronx, Fresh Kills, or Willowbrook networks.

The Company is interested in bids in all other locations across its service territory and will consider them strongly under the same criteria identified in this RFP.

Preferred O&R Locations

O&R will not have preferred locations within its service territory for this procurement.
