

Unaccounted for Energy Factors

In its April 24, 2009 order, the Public Service Commission directed the Company to supply to ESCOs hourly "unaccounted-for-energy" (UFE) factors for each load zone in Con Edison's service territory and to amend its Retail Access Implementation Plan and Operating Procedure to reflect that requirement. The Company previously supplied average monthly UFE factors for each zone.

Please see the attached spreadsheet for the updated **October and November 2020 UFE**.

Note: In addition to the **October and November 2020 UFE** Factors, this newsletter includes the UFE Factors for the **past 24 months**. We have moved the historical UFEs from this Newsletter to a section on our website titled "Related Information".
