

CURRENT RESTRICTIONS FOR INSTALLATION OF EMERGENCY BACK-UP GENERATORS IN THE GAS MORATORIUM AREAS

The Generator Sizing Loads Include:

- Lights
- Refrigeration/freezer
- Pumps
- Water
- Fans (including attic fans)
- Personal equipment - phones/laptops
- Washing machine

Square Footage of Home	Acceptable Generator Size*
1000-2000 Sq FT	8.5-13 KW
2000-3000 Sq FT	8.5-14 KW
3000-4000 Sq FT	10-14 KW
4000-5000 Sq FT	10-16 KW
5000-8000 Sq FT	16-24 KW

*If life sustaining equipment or other medical conditions can be documented, generators may be sized to the next available KW size or as indicated by equipment load. Variation based on manufacturer.

NOTE: THIS EXCEPTION IS ONLY FOR 1-4 FAMILY HOMES. IT DOES NOT COVER ANY OTHER SIZE/TYPE OF GENERATOR PROJECT, INCLUDING COMMERCIAL GENERATORS.

YOU MUST HAVE YOUR CONTRACTOR/PLUMBER SUBMIT A WORK REQUEST IN PROJECT CENTER @ WWW.CONED.COM/ES
