Welcome to Project Center 2.0 Webinar

Cherry Hla-Htay and Jessica Zazzera
Webinar Logistics

Everyone is muted and off camera during webinar

Questions can be submitted via chat
Questions will be answered at the completion of the presentation

Answering all Project Center related questions ONLY

No case related questions will be answered
Case related questions should be asked via inquiry

Additional webinar dates
This is the last one!

Recording can be found at www.coned.com/es
Agenda

✓ What is Project Center?
  • What can I do?
  • What I need to know
✓ Case Dashboard
✓ Case Details
✓ E-forms
✓ Inquiries
✓ Creating a Case
✓ Q&A
What is Project Center?

- Main interface between Con Edison and customer/contractors for service work
- Used for gas and electric service requests, upgrades, gut rehabs, etc.
- Any upcoming work must have a case filed in Project Center portal
- Best way to reach a Con Edison rep and interact with them about your case
What Can I do in Project Center?

CREATE A CASE
ASK A QUESTION ABOUT AN EXISTING CASE
SEE NEXT STEPS AND TO DO’S ON YOUR CASE
MAKE AN APPOINTMENT (IF CASE IS ELIGIBLE)
UPLOAD REQUIRED DOCUMENTS

CREATE A STREETLIGHT REQUEST (WESTCHESTER ONLY)
UPLOAD ENERGY EFFICIENCY BENCHMARKING REQUESTS
What I Need to Know About New PC

- New PC to launch in May 2023
- Username and password is same as current PC
- All active cases will be transferred over in same status with same case ID number
- Any draft cases will not be transferred over
- All completed/ cancelled case will be transferred over
- Only primary customer or primary contractor can:
  - Add or make changes to contacts
  - Make appointments
  - Accept/ Decline cost estimates
- Can be used across all devices and browsers
  - Mobile App no longer required
  - Download url to homescreen
Case Dashboard

If there is an existing service, did the contractor make the final connections using approved Con Edison connectors in accordance with specification **10-54637**?

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

- Yes
- No
- N/A

Note: Effective February 2017, a $109.00 charge for each re-inspection required because the Customer's contractor submitted documentation that its work at the Customer's premises was completed, according to Company specifications and is ready for final inspection by the Company. But the Company on its inspections found the work to be either incomplete or incorrectly performed. Using this checklist can help inspections and avoid delays in service work. We will work with you to help ensure that our work goes smoothly and is satisfactory to (co)contracted with our activities.

- I understand that placing a checkmark in the adjacent check box constitutes my electronic signature, dated as of the date on which I check the box and, that by doing so, I am consenting to use electronic means to sign this document.

Contractor to Check Appropriate Corrective Condition:

I have repaired and tested,

☐ Leak at gas equipment (specify unit or equipment):

☐ Control Valve  ☐ Pilot Valve  ☐ Appliance Valve

☐ Hood Draft  ☐ Appliance Regulator  ☐ Flue Connection

☐ Other (Specify) and provide details for above items checked.

This certifies that all gas piping is complete and continuous up to the appliance, including appliance control valves, or end of use equipment in affected apartments or areas.

It is also certified that in the affected area(s):

☐ All areas containing gas utilization equipment (e.g. boiler room, laundry room) have been inspected and the equipment gas valves have been closed.

☐ All apartments containing gas appliances have been inspected and the appliance valves have been closed.

☐ All open-ended valves, stubs, test connections, purge connections, or any other piping or fittings which could be left open, have been closed gas tight with a threaded plug or cap. For premises which have meters in the apartments, the meter valves have been left open, so that the integrity test is complete up to the appliance valves.

In addition, I accept responsibility for the gas in any end of use equipment or appliances not gas-tested by Con Edision and identified above for Turn-On.

Gas Authorization No. ____________________________

Lockable valves and test ports installed / exist at the base of each riser

☐ Yes  ☐ No

Gas Turn-On request for the following amount of equipment (specify below):

Hey Natalya, I have a question about the appointment, what document do I need in advance?
Appointment Details: Joint Inspection

Representative:

You should receive a response from a case representative within one business day.

Amanda Cisello  10:48 PM Sep 23, 2022
Here’s the final document, can you take a look? In addition to providing the project’s total price tag, the first draft of the document, can you take a look before we upload it? In addition to providing the project’s total price tag, an estimate usually details the project timeline, the materials that will need to be purchased, the terms and conditions, contact details, and other relevant information.
