

 Rockland Electric Company

Know the Price to Compare

Selecting a third-party energy supplier is the first step to finding a deal that's right for you. But don't just set it and forget it.

Prices may change during the year, so check the Price to Compare to stay on top of changes that could impact your choice of supplier. Doing this can line you up for continued savings. You will find the Price to Compare at oru.com/NJPrice.

Remember, no matter who supplies your energy, Rockland Electric will deliver it to you. We will also continue to read your meter, handle service calls, send you your bill, and provide emergency assistance.

When selecting a third-party energy supplier, don't hesitate to ask questions. Here are a few questions that can help you make a choice that best fits your needs.

- Is the price fixed or variable? If fixed, is it guaranteed and for how long? Does it include taxes? Is a deposit required? Are there additional fees not included in the price quote?
- How long is the agreement and are there penalties for breaking it?
- Can I change price options during the agreement and is there an automatic renewal?
- What are the terms and conditions, and will they be provided in writing?
- What are the Customer Service hours and toll-free phone number?
- Are green energy sources like solar, wind or hydro power available?
