

Integrated Meter Socket and CT Cabinet Assemblies - 3 Phase 4 wire wye and delta service 200 to 800 Amperes. <b>NOT FOR USE ON 277/480 VOLT SERVICE</b>			
Manufacture	Ampere Rating	Catalog Number	Description
Delta Metal Products	200-400	4CT-3-OR	Ringless design device, Trans-S integrated meter socket and current transformer cabinet equipped with MS10P-3-OR Three phase 10 position test switch
	400-800	8CT-3-OR	Ringless design device, Trans-S integrated meter socket and current transformer cabinet equipped with MS10P-3-OR Three phase 10 position test switch
Nav-Tech, Inc.	200-400	TS-400-208(3)O&R	Ringless design device, Trans-S integrated meter socket and current Transformer cabinet equipped with MS 10P-OR three phase 10 position test switch
	400-800	TS-800-208(3)O&R	Ringless design device, Trans-S integrated meter socket and current Transformer cabinet equipped with MS 10P-OR three phase 10 position test switch

Transformer Rated Meter Socket and Test Switch Only		
Manufacture	Catalog Number	Description
Meter Devices Company, Inc.	602U3060C13-032	3 phase 4 wire wye 120/208 and 277/480 Vac service, Ringless design meter socket with 10 position test switch. Requires use of a current transformer cabinet. Potential transformer cabinet required for 277/480 volt service, refer to company specifications for 277/480 volt service installation.
	602U3060C13-833	3 phase 4 wire wye 120/208, and 3 phase 4 wire Delta service, Ringless design meter socket with 10 position test switch. Requires use of a current transformer cabinet. <b>Not for use on 277/480 volt services.</b>
Delta Metal Products	MS10P-3-OR	3 phase 4 wire wye 120/208, and 3 phase 4 wire Delta service, Ringless design meter socket with 10 position test switch. Requires use of a current transformer cabinet. <b>Not for use on 277/480 volt services.</b>
Nav-Tech, Inc.	MS 10P-OR	3 phase 4 wire wye 120/208, and 3 phase 4 wire Delta service, Ringless design meter socket with 10 position test switch. Requires use of a current transformer cabinet. <b>Not for use on 277/480 volt services.</b>

Current Transformer Cabinet Assemblies			
Manufacture	Rating	Catalog Number	Description
Delta Metal Products	200-400	R4CT-3-OR (remote)	Remote current transformer cabinet, requires a meter socket and test switch. <b>For Polyphase applications only.</b>
	400-800	R8CT-3-OR (remote)	Remote current transformer cabinet, requires a meter socket and test switch. <b>For Polyphase applications only.</b>
East Coast Panelboard Co.	400-800	CTR-800R	Remote current transformer cabinet, requires a meter socket and test switch. <b>For Single Phase or Polyphase applications.</b>
Meter Devices	400-800	507U7591	Remote current transformer cabinet, requires a meter socket and test switch. <b>For Single Phase or Polyphase applications.</b>

Potential Transformer Cabinet Assemblies			
Manufacture	Voltage Rating	Catalog Number	Description
East Coast Panelboard Co.	277/480	EC-PTR	For use on 277/480 volt services requiring metering potential transformers.

Primary Meter Cabinet Assemblies			
Manufacture		Catalog Number	Description
Meter Devices		507U4163	Outdoor double door meter cabinet, NEMA 3 construction. 32"w x 36"h x 16"d.
