

Get Instant Incentives on Lighting

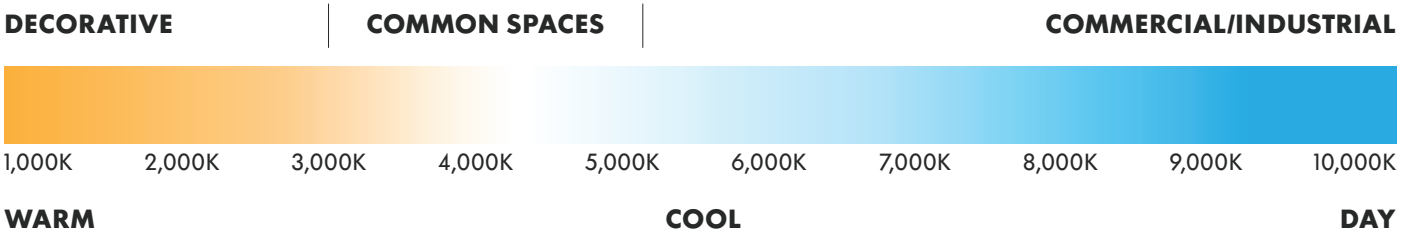

Limited-time offer. Now you can save your business up to 40% more.
Offer valid October 1, 2023 through December 15, 2023.

Upgrading your interior and exterior lighting can **lower your energy costs, reduce maintenance time and costs, and improve your bottom line** for years to come.

LEDs Are Versatile

When you make the switch to LEDs, you can brighten up your business—boosting productivity and making employees and customers feel safer.

LEDs are available in a wide range of colors to suit any space or task. Light color is measured on the Kelvin (K) scale—a lower K means warmer light, while a higher K means cooler light.

How It Works

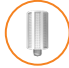

It's easy! All you have to do is purchase qualifying LEDs and verify your business's eligibility—then you'll save instantly at checkout. There's **no paperwork required**. We'll just need the following:

- Business name, address, and email address
- Orange & Rockland commercial account number, meter number, or address
- Installation address and building type

What's Eligible

We can help you choose these qualifying **ENERGY STAR®-certified** and **DesignLights Consortium LEDs** from our inventory.
