

# Get Instant Incentives on Lighting

Limited-time offer. Save more for your business.  
Offer valid through March 31, 2024.

Upgrading your interior and exterior lighting can **lower your energy costs, reduce maintenance time and costs, and improve your bottom line** for years to come.

## LEDs Are Versatile

When you make the switch to LEDs, you can brighten up your business—boosting productivity and making employees and customers feel safer.

LEDs are available in a wide range of colors to suit any space or task. Light color is measured on the Kelvin (K) scale—a lower K means warmer light, while a higher K means cooler light.

## How It Works

It's easy! All you have to do is purchase qualifying LEDs and verify your business's eligibility—then you'll save instantly at checkout. There's **no paperwork required**. We'll just need the following:

- Business name, address, and email address
- Orange & Rockland commercial account number, meter number, or address
- Installation address and building type

## What's Eligible

We can help you choose these qualifying **ENERGY STAR® certified** and **DesignLights Consortium LEDs** from our inventory.
